User Interface

As you launch the software, the welcome screen of Gmail Backup Tool will display like mentioned below picture:

Working of Gmail Backup Tool

Step 1: Download the **Gmail Backup Tool** and run it as **administrator**.

The screenshot shows the Gmail Backup Software interface. On the left, there is a dark grey sidebar with the text "Take Backup Email from Gmail A/C & Save into PDF,PST,EML,MSG,MBOX,Yahoo, & Hotmail" and a large Gmail logo. Below the logo is the copyright notice "© Aryson Technologies. All Rights Reserved". The main window has a dark header with the software name and icons. The central area is a white login form titled "Gmail" with a dropdown arrow. It contains two input fields: "USER NAME (Email Address)" and "PASSWORD (Use third party App Password)". To the right of the password field is a "Show Password" checkbox. A "More Help" link is positioned above the password field. Below the fields, there is a "Sign In" button with a right-pointing arrow. A note below the fields states: "Please Click on The Link *To access your Gmail account , you'll need to generate and use an app password *Turn on less secure app". At the bottom of the form, there is a section for selecting paths for log and temporary files, with two input fields: "C:\Users\Admin\Documents" (with a "Log Path" button) and "C:\Users\Admin\AppData\Local\Temp\" (with a "Temp Path" button). A "Next" button is located at the bottom right of the interface.

Step 2: Enter **Gmail Id** and **third-party app password** and tap on the **Sign In** button.
