

CSV to VCF/vCard Converter

(Software guide)

Overview

CSV to VCF Converter is the most reliable utility to **convert CSV files to VCF/vCard**. Use it to easily **convert single or multiple CSV files into vCard or PDF format**. The software supports CSV files created by **Microsoft Excel, Apple Numbers, Google Sheets, OpenOffice Calc**, and more. Moreover, the tool supports all versions of vCard, including Version 2.1, vCard Version 3.0, and vCard Version 4.0.

What's New in this version?

- Easily converts CSV files into vCard format.
- Supports single or multiple CSV files.
- Features to create a single file for all contacts or save it as blank contacts.
- Convert CSV files into PDF formats.

Key features

- Convert Excel CSV data into vCard or PDF format with high accuracy.
- The software is compatible with all Outlook versions, including 11, 10, 8.1, 8, etc.
- Supports vCard Version 2.1, vCard Version 3.0, and vCard Version 4.0.
- The demo version enables users to convert 50 rows of CSV files for free.
- Allows you to choose the destination path.

Minimum System Requirement

Hard Disk Space: 500 MB of free hard disk space required

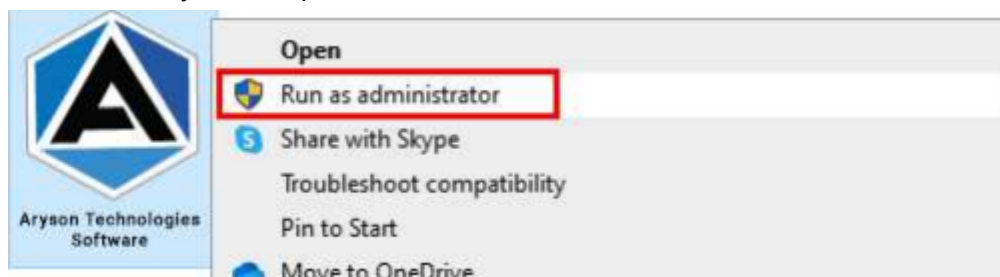

RAM: 4 GB of RAM (4 GB is recommended)

Processor: Intel® Core™ 2 Duo CPU E4600 @ 2.40GHz 2.39GHz"

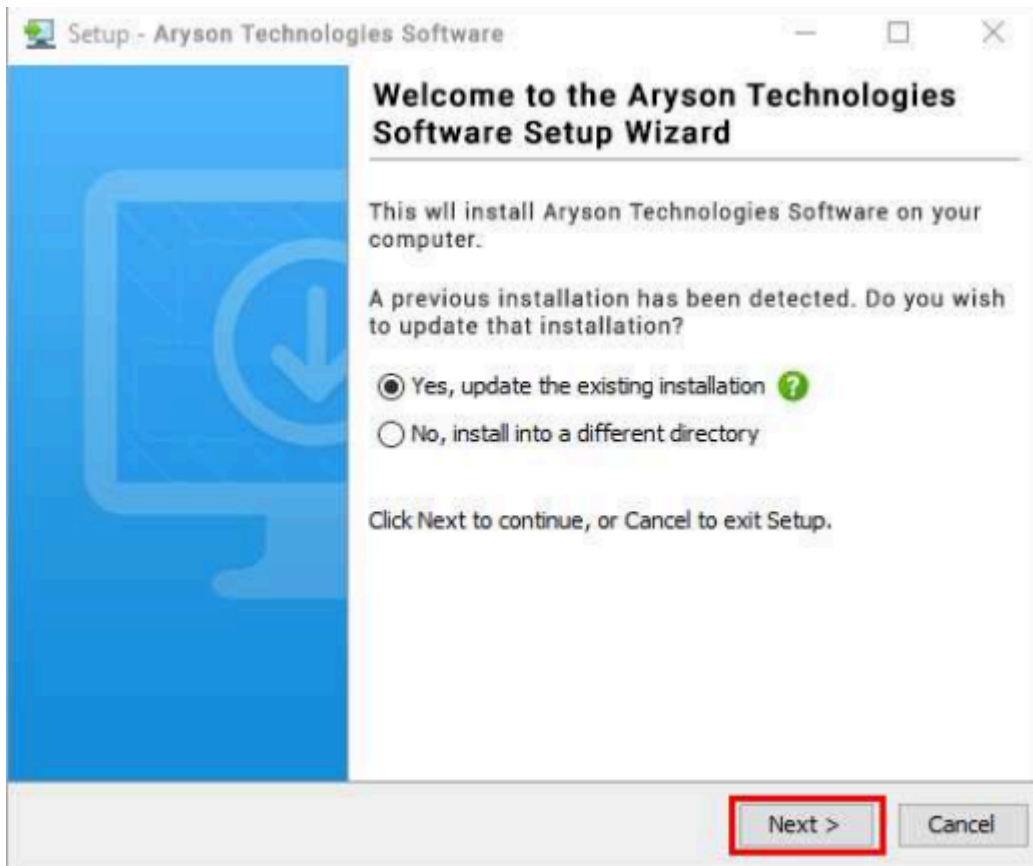

Installation Process of Aryson Software

Follow the steps to Install the **Aryson Technologies** software on your system:

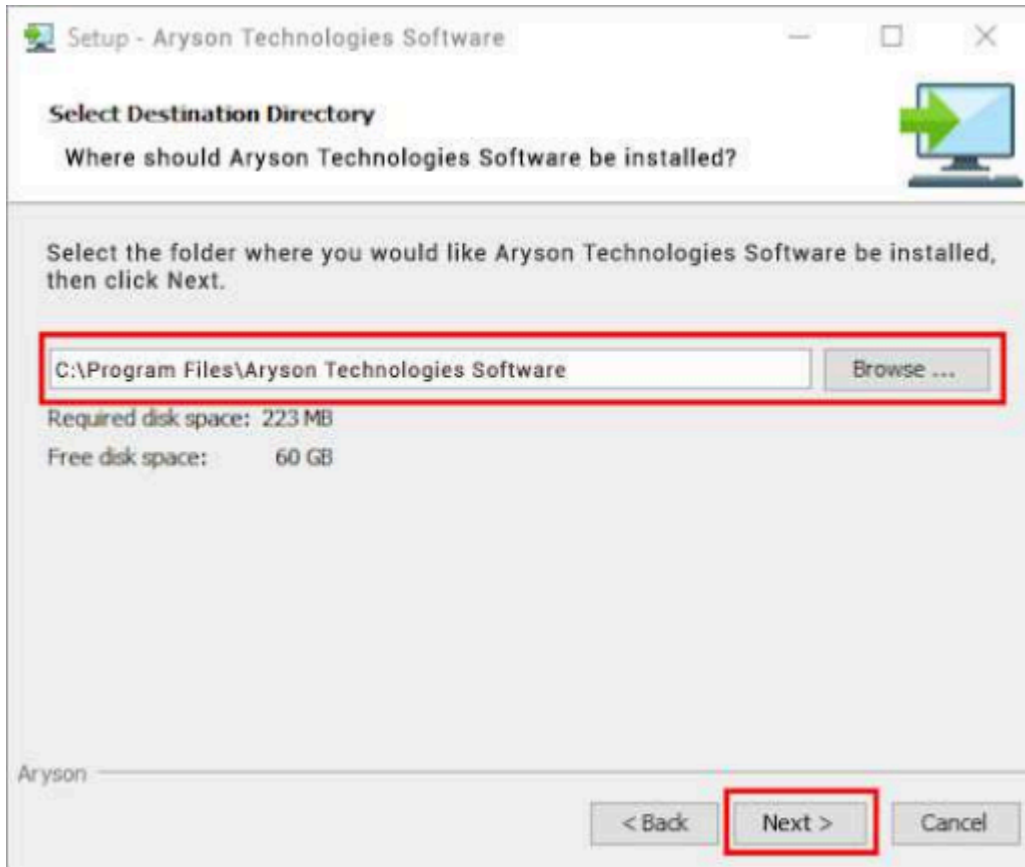

- Firstly, Visit the official website of **Aryson Technologies**.
(<https://www.arysontechnologies.com>)
- After that Click on the **Product Section** of the Website and choose the software you need to download from the navigation list.
- After that, You will find a product description page of your selected software. From the description page, tap on the **Download Now** button.
- After downloading, **double-click** on the downloaded .exe of the tool. Or visit the download location from your computer and **run** the software as an **Administrator**.

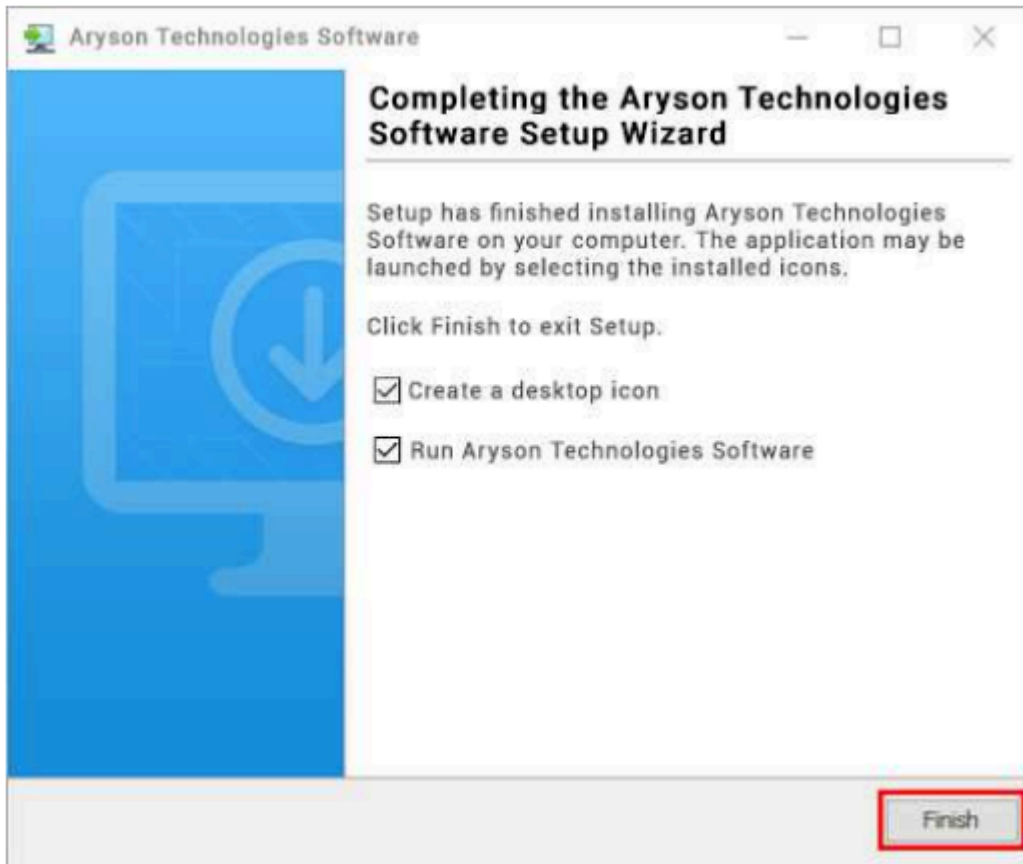

- Click the **Next** button to continue the installation setup of the software.

- Choose the **destination directory** of the software and click **Next**.

- Now, you have installed the software on your system. Click **Finish** to launch the software.

User Interface

After downloading the CSV to VCF Converter Tool, you will find the welcome screen as played below.

The screenshot shows the user interface of the 'Aryson CSV to vCard Converter (DEMO)' application. The window title bar includes the application name and standard minimize, maximize, and close buttons. Below the title bar, a header section contains the text 'Best Software to Export CSV Contacts to vCard/VCF and PDF Format', a 'Live Chat' button, and a menu icon. The main interface is divided into several sections:

- Select File:** This section contains two radio buttons: 'Add Single CSV File' (which is selected) and 'Add Folder'. Each has an associated text input field. To the right of the 'Add Single CSV File' field is an 'Add File' button with the text 'Select Single CSV File' below it. To the right of the 'Add Folder' field is an 'Add Folder' button with the text 'Select folder having CSV file(s)' below it. A green link labeled 'Sample csv file' is positioned below the 'Add Folder' button.
- Select Log path:** This section features a text input field containing the path 'C:\Users\Admin\My Documents' and a 'Log Path' button with the text 'Select Path for Log File' below it.
- Save Options:** This section contains two radio buttons: 'PDF' and 'vCard' (which is selected).

At the bottom right of the interface, there is a blue 'Next' button with the text 'Click here to proceed ahead' below it.

Software Working Process

Step 1: Download & Install Aryson CSV to vCard Converter.

The screenshot shows the Aryson CSV to vCard Converter (DEMO) application window. The title bar reads "Aryson CSV to vCard Converter (DEMO)". The main header area contains the text "Best Software to Export CSV Contacts to vCard/VCF and PDF Format" and a "Live Chat" button. Below this is a "Select File" section with two radio buttons: "Add Single CSV File" (selected) and "Add Folder". The "Add Single CSV File" option has a text input field and an "Add File" button. The "Add Folder" option has a text input field and an "Add Folder" button. Below the "Add Folder" section is a "Select Log path" section with a text input field containing "C:\Users\Admin\My Documents" and a "Log Path" button. At the bottom is a "Save Options" section with two radio buttons: "PDF" and "vCard" (selected). A "Next" button is located at the bottom right of the interface.

Step 4: Select the CSV file from your device and click Open. After that, you can see the selected file on the tool's interface.

Step 5: Select vCard as your saving format to save your CSV file and click Next.

The screenshot displays the Aryson CSV to vCard Converter (DEMO) web interface. At the top, there is a navigation bar with the title "Best Software to Export CSV Contacts to vCard/VCF and PDF Format", a "Live Chat" button, and a menu icon. Below this, the "Select File" section offers two options: "Add Single CSV File" (selected) and "Add Folder". The "Add Single CSV File" option includes a text input field, an "Add File" button, and a "Select Single CSV File" label. Below this is a text area containing a sample CSV file. The "Add Folder" option includes a text input field, an "Add Folder" button, and a "Select folder having CSV file(s)" label. A "Sample csv file" link is also present. The "Select Log path" section features a text input field with the path "C:\Users\Admin\My Documents" and a "Log Path" button, with a "Select Path for Log File" label below. The "Save Options" section at the bottom has two radio buttons: "PDF" and "vCard" (selected and highlighted with a red box). A "Next" button (highlighted with a red box) is located at the bottom right, with the text "Click here to proceed ahead" below it.

Step 6: Here, the software provides two Export Files as options:

- Create a Single File for All Contacts - Choose this feature to create a single file for all your contacts.
- Save as Blank Contacts - To save your contacts as blank select this option.
