

Email Archiving

(Software guide)

Overview

The Email Archiving Tool is a professional tool that archives emails from various email clients into different file formats. It supports multiple web and cloud-based email clients in different file formats, including **PDF, PST, EML, MSG, MBOX, DOC, DOCX, DOCM, JSON, PNG**, etc. With this tool, you can save emails from 60+ email clients, including **Gmail, Yahoo, G Suite, Office 365, iCloud, Zoho Mail**, etc.

What's new in this version?

- Archive emails with attachments into a supported file format.
- Deletes emails from the server after archiving.
- User-friendly and updated interface.
- Save emails with 100% accuracy and retain folder hierarchy.

Key Features

- It allows email archiving from 60+ web and cloud-based email clients such as Gmail, Office 365, Yahoo, IMAP, Zoho Mail, GoDaddy, iCloud, etc.
- Saves emails into various file formats, including MBOX, PST, PDF, MSG, HTML, DOC, PNG, EML, EMLX, and many more.
- The skip Duplicate Emails option allows users to ignore similar emails from the archive based on To, From, Subject, and Body.
- Split the resultant PST file in any size.
- You can migrate emails with or without attachments.
- You can delete emails from the server after archiving them into another format.
- Archive emails for the selected date range.
- You can choose the folders for which you want to take backups.

Minimum System Requirements

Processor: Intel® Core™ 2 Duo CPU E4600 @ 2.40GHz 2.39GHz"

RAM: Minimum 4 GB RAM

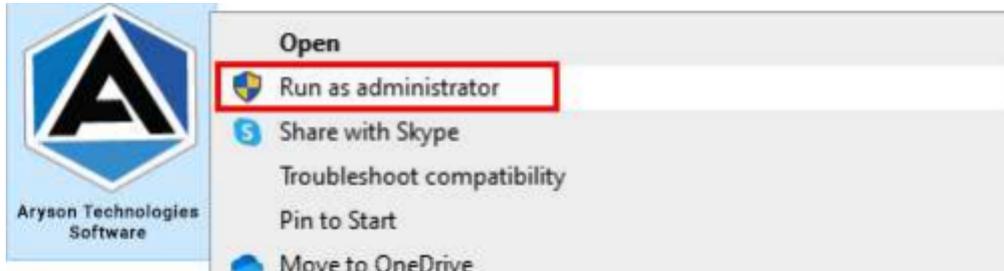

Hard Disk: 50 GB of free hard disk space required

Installation Process of Aryson Software

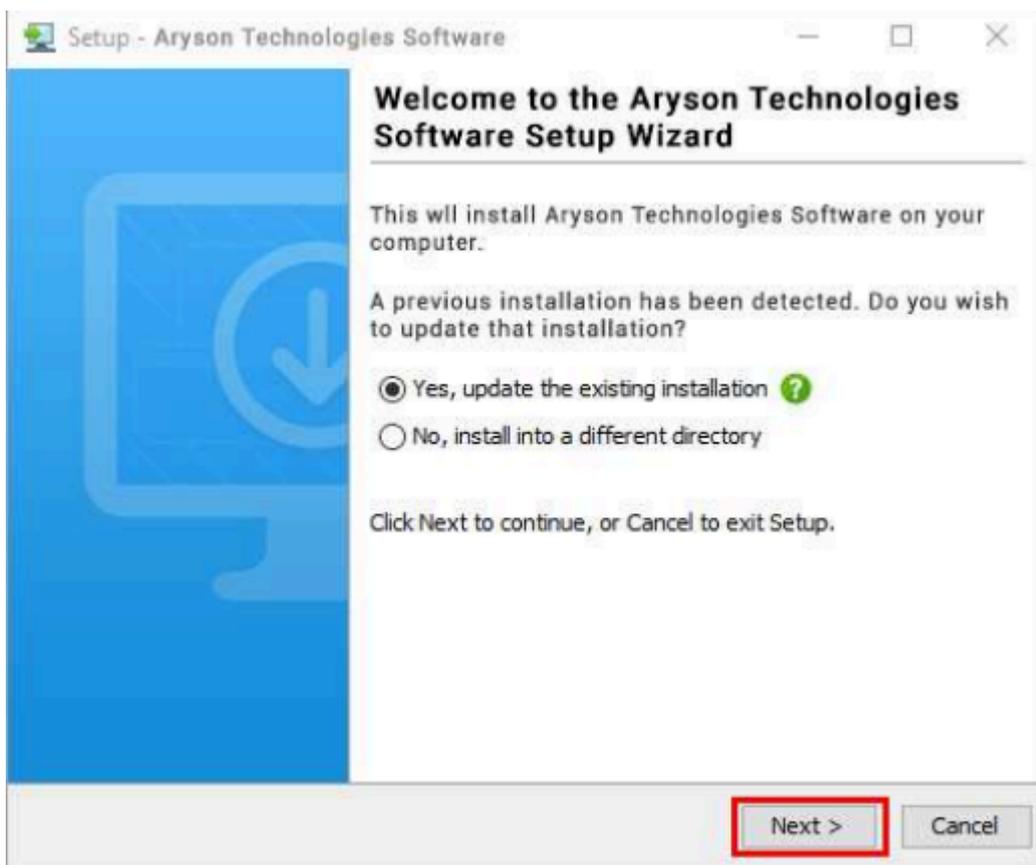

Follow the steps to install the **Aryson Technologies** software on your system:

- Firstly, Visit the official website of **Aryson Technologies**.
(<https://www.arysontechnologies.com>)
- After that Click on the **Product Section** of the Website and choose the software you need to download from the navigation list.
- After that, You will find a product description page of your selected software. From the description page, tap on the **Download Now** button.

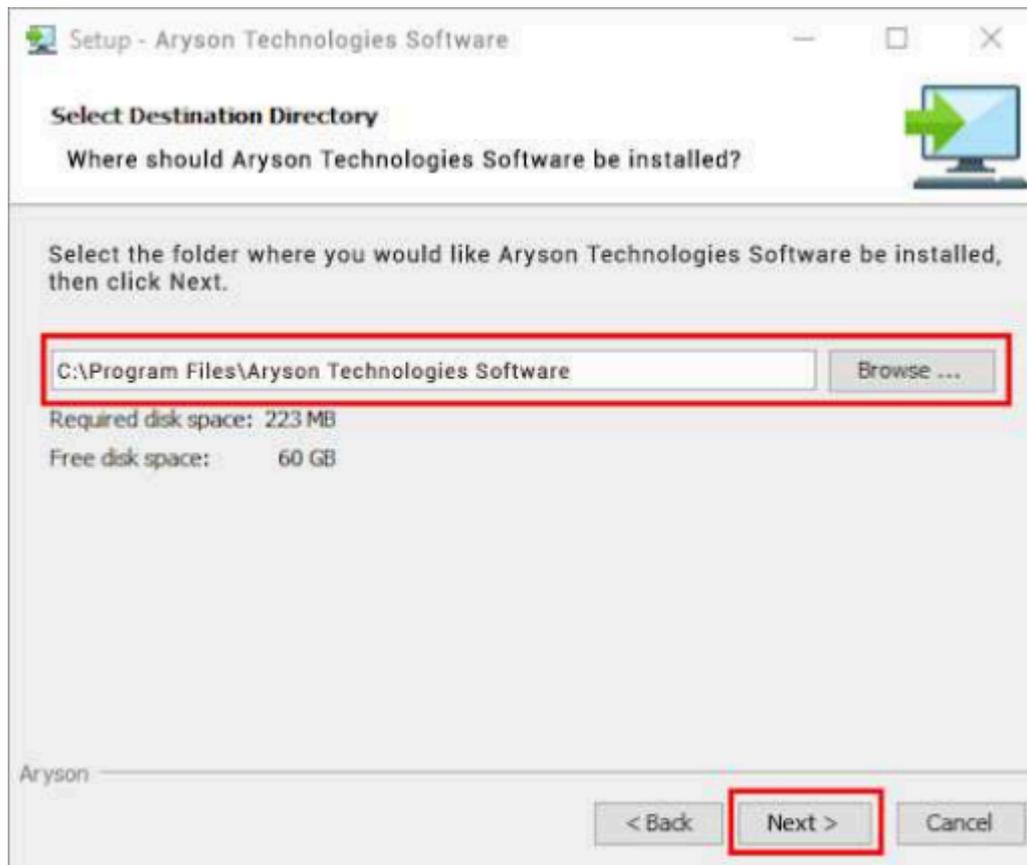

- After downloading, **double-click** on the downloaded .exe of the tool. Or visit the download location from your computer and **run** the software as an **Administrator**.

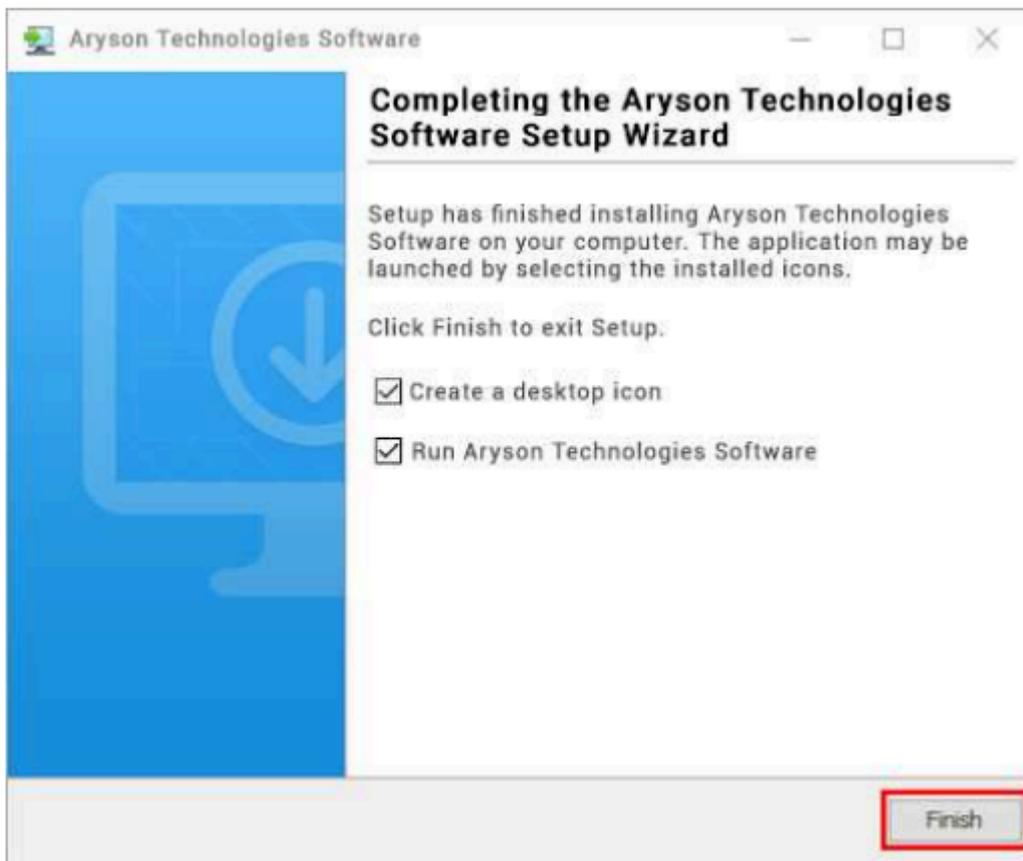

- Click the **Next** button to continue the installation setup of the software.

- Choose the **destination directory** of the software and click **Next**.

- Now, you have installed the software on your system. Click **Finish** to launch the software.

User Interface

After downloading the Email Archiving Tool, a welcome screen appears as below:

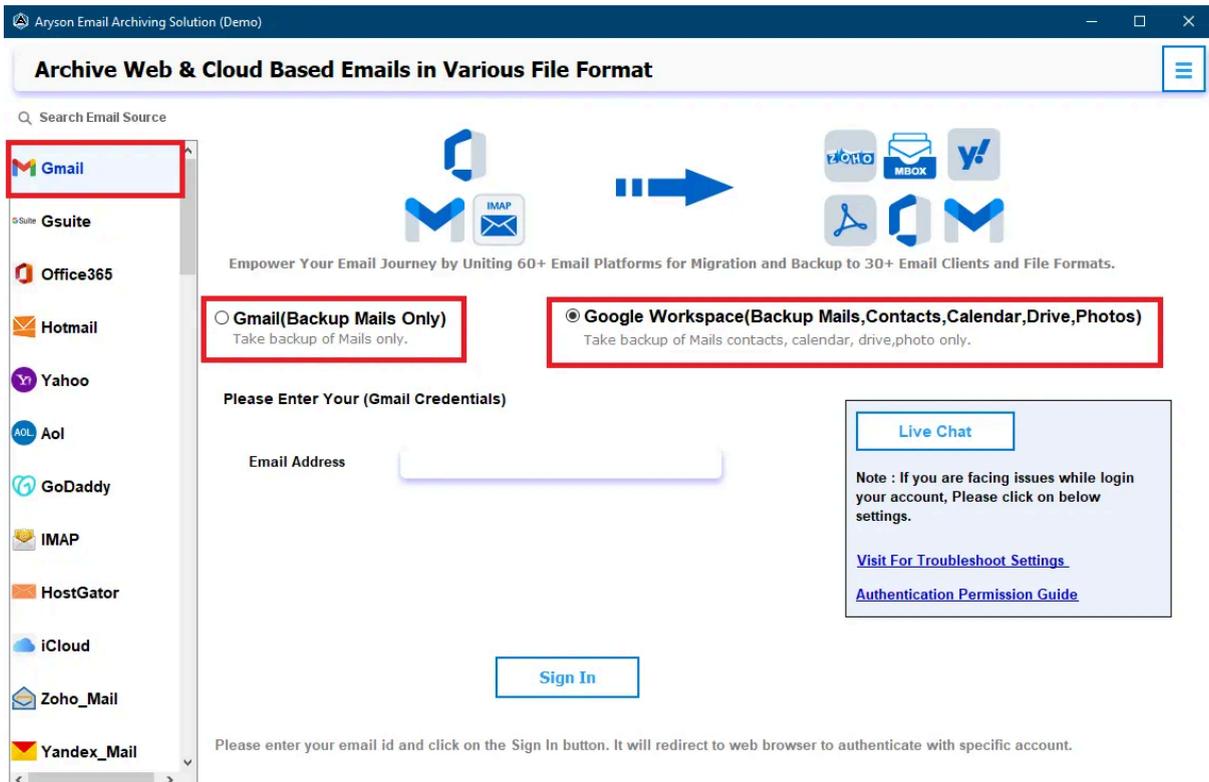

Software Working Process

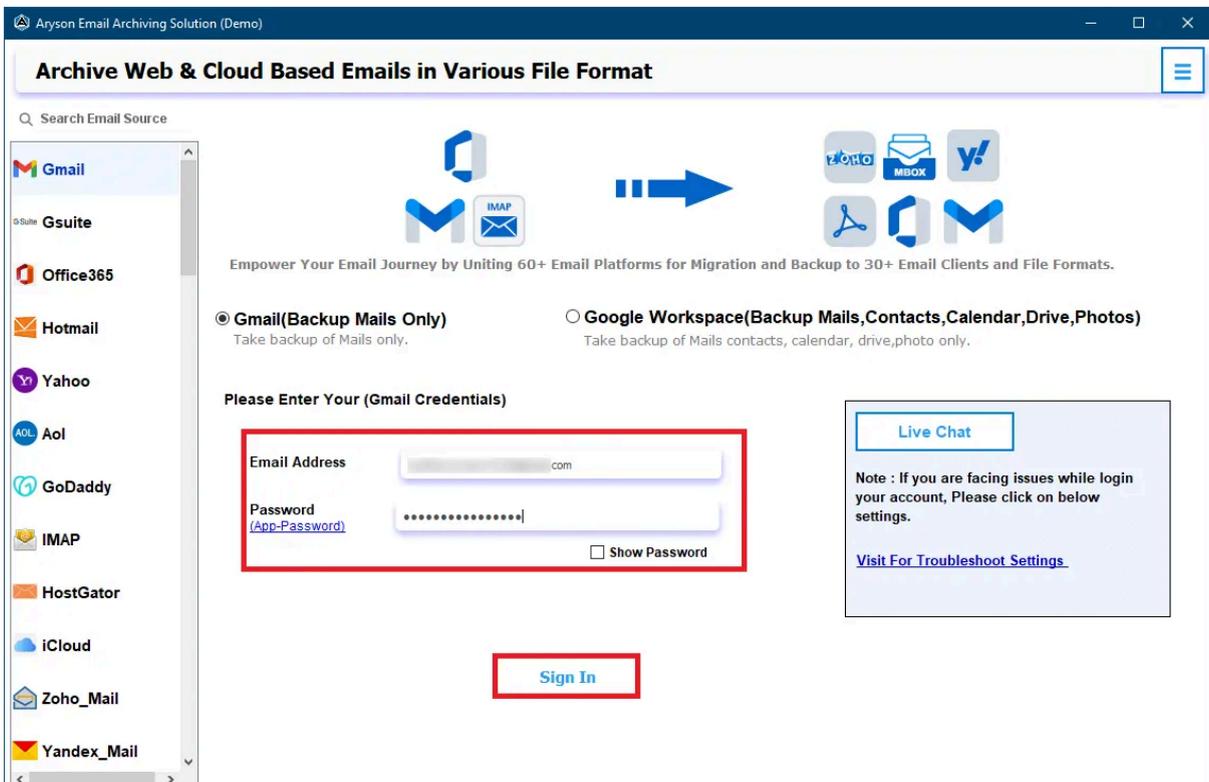

Step 1: Download and run the Email Archiving Software.

The screenshot shows the 'Aryson Email Archiving Solution (Demo)' window. The title bar includes standard window controls. Below the title bar is a header with the text 'Archive Web & Cloud Based Emails in Various File Format' and a menu icon. A search bar labeled 'Search Email Source' is positioned above a vertical list of email providers: Gmail, Gsuite, Office365, Hotmail, Yahoo, Aol, GoDaddy, IMAP, HostGator, iCloud, Zoho_Mail, and Yandex_Mail. The main content area features a central graphic with an arrow pointing from source email icons (Gmail, IMAP) to destination email icons (Zoho, MBOX, Yahoo, etc.). Below this graphic is the text: 'Empower Your Email Journey by Uniting 60+ Email Platforms for Migration and Backup to 30+ Email Clients and File Formats.' Two radio button options are presented: 'Gmail(Backup Mails Only)' (unselected) and 'Google Workspace(Backup Mails,Contacts,Calendar,Drive,Photos)' (selected). Below these options is the instruction 'Please Enter Your (Gmail Credentials)' and an 'Email Address' input field. A 'Sign In' button is located below the input field. To the right, a 'Live Chat' button is present, along with a note: 'Note : If you are facing issues while login your account, Please click on below settings.' and two links: 'Visit For Troubleshoot Settings' and 'Authentication Permission Guide'. At the bottom, a footer note states: 'Please enter your email id and click on the Sign In button. It will redirect to web browser to authenticate with specific account.'

Step 2: Choose a Source Email Client. If you select the source email client as Gmail, choose any one from Gmail and Google Workspace.

Step 3: Enter your email address and App Password and click the Sign in button.

Step 4: Select the folder name that you want to backup and hit Next.

The screenshot shows a window titled "Archive Web & Cloud Based Emails in Various File Format". It contains a table with the following data:

Folder(s). No	Folders Name	Total Count	<input type="checkbox"/>
1	16-10-23 12-59-09	0	<input type="checkbox"/>
2	16-10-23 12-59-09/	0	<input type="checkbox"/>
3	16-10-23 12-59-09/	1	<input type="checkbox"/>
4	INBOX	37	<input type="checkbox"/>
5	Mon Oct 16 12 32 12 IST 2023	0	<input type="checkbox"/>
6	Mon Oct 16 12 32 12 IST 2023/	0	<input type="checkbox"/>
7	Testing	0	<input type="checkbox"/>
8	Testing/Inbox	0	<input type="checkbox"/>
9	Testing/Inbox/Top of Personal Folders	0	<input type="checkbox"/>
10	Testing/Inbox/Top of Personal Folders/Inbox	0	<input checked="" type="checkbox"/>
11	[Gmail]	0	<input type="checkbox"/>
12	[Gmail]/All Mail	61	<input type="checkbox"/>
13	[Gmail]/Drafts	0	<input type="checkbox"/>
14	[Gmail]/Important	35	<input type="checkbox"/>
15	[Gmail]/Sent Mail	34	<input type="checkbox"/>
16	[Gmail]/Spam	0	<input type="checkbox"/>
17	[Gmail]/Starred	0	<input type="checkbox"/>
18	[Gmail]/Trash	14	<input type="checkbox"/>

At the bottom of the window, there are "Back" and "Next" buttons. The "Next" button is highlighted with a red box.

Step 5: Choose the option Save in File Format or Migrate in Email Client and select an output.

The screenshot shows the same window as Step 4, but with the "Save in File format" radio button selected and highlighted with a red box. Below this, there are several checkboxes: "Skip Duplicate Email", "To", "From", "Split Pst", "Migrate or Backup Em", and "Free up Server Space". A dropdown menu for "Select File Format" is open, showing options: PST, MSG, MBOX, EML, EMLX, HTML, PDF, and CSV. The "PST" option is selected and highlighted with a red box. To the right, there is a "Date Filter" section with "Start Date" and "End Date" input fields. At the bottom, there are "Back" and "Next" buttons.

Step 6: Now, you can choose the additional features of the software.
