

## Excel to vCard Converter

(Software guide)

### Overview

**Excel to vCard Converter** is a reliable tool to export Excel contacts into vCard (.vcf) format efficiently. It supports 10+ files, including XLS and XLSX, allowing users to convert multiple contacts in bulk while preserving contact details. The software offers options to map Excel fields with vCard attributes for accurate conversion. It ensures compatibility with all Windows versions, including 11, 10, 8.1, 8, and more.

### What's New in this Version?

- Supports vCard versions 2.1, 3.0, and 4.0 for better compatibility.
- Improved Excel-to-vCard field mapping for accurate data transfer.
- Preview Excel data before converting.
- Supports more Excel formats like XLT, XLSM, XLSB.

## Key Features

- Converts Excel (XLS, XLSX) files to vCard (.vcf) format.
- Supports vCard versions 2.1, 3.0, and 4.0.
- Allows bulk contact conversion.
- Maps Excel fields to vCard attributes.
- Allows selective contact conversion.
- Maintains original contact formatting and structure.
- No file size limitation for Excel input.
- Provides a log report after conversion.
- Easy-to-use, intuitive interface.
- Compatible with all Windows versions.
- Supports all macOS versions.

## Minimum System Requirements

**Hard Disk Space:** 500 MB of free hard disk space required

**RAM:** 4GB RAM Recommended

**Processor:** Intel® Core™ 2 Duo CPU E4600 @ 2.40GHz 2.39GHz"

## Installation Process of Aryson Software

Follow the steps to install the **Aryson Technologies** software on your system:

- Firstly, Visit the official website of **Aryson Technologies**.  
(<https://www.arysontechnologies.com>)
- After that Click on the **Product Section** of the Website and choose the software you need to download from the navigation list.
- After that, You will find a product description page of your selected software. From the description page, tap on the **Download Now** button.
- After downloading, **double-click** on the downloaded .exe of the tool. Or visit the download location from your computer and **run** the software as an **Administrator**.

- Click the **Next** button to continue the installation setup of the software.

- Choose the **destination directory** of the software and click **Next**.

- Now, you have installed the software on your system. Click **Finish** to launch the

software.

There are two options for Mapping Excel files before converting them. **Manual Mapping** and **Auto Mapping**.

**Step 6:** If you choose Manual Mapping, select the Excel Field option and the vCard Field option. After that, click on the Add button.

The screenshot shows the 'Aryson Excel to vCard Converter (Demo)' application window. At the top, there is a header with the text 'Best Tool to Export MS Excel Contacts into vCard or VCF Format' and a menu icon. Below the header, there are two radio button options: 'Manual Mapping' (which is selected and highlighted with a red box) and 'Auto Mapping'. Under 'Manual Mapping', there are two dropdown menus: 'Excel Field' with 'Title' selected (highlighted with a red box) and 'vCard Field' with 'First Name' selected (highlighted with a red box). Below these dropdowns is a large empty rectangular area for mapping. To the right of this area are three buttons: 'Add' (highlighted with a red box), 'Remove', and 'Remove All'. Below the 'Add' button is the text 'Add Selected Fields for Mapping'. Below the 'Remove' button is the text 'Removes Selected Field'. Below the 'Remove All' button is the text 'Removes All Added Fields'. At the bottom of the interface, there are two buttons: 'Back' and 'Next'. Below the 'Back' button is the text 'Click Here To Go Previous Panel.' and below the 'Next' button is the text 'Click Here To Go Conversion Panel.'

**Step 7:** If you choose Auto Mapping options and click on the Auto Map button, then automatically fetch the Excel Field column heading into the vCard Field records.

## Step 9: Choose the Export File As option

- There are two options to save Excel File into vCard File - **Create a Single File for All Contacts** and **Save as Blank Contacts**.
- **Select vCard Version** - There are three versions of vCard options available **vCard Version 2.1**, **vCard Version 3.0**, and **vCard Version 4.0**. You can choose the vCard Version according to your requirements.
- **Remove Duplicacy** - When you want to remove the duplicates from the output result, then you can check out this option and remove duplicate records from the restaurant vCard file.
- **Naming Convention** - If you want to save the resultant file on the basis of name then check out this option.
- **Destination Path** - Click on the Dest Path button and set the destination path where you want to save the resultant file.

After that, click on the **Convert** button and convert Excel to vCard (VCF) file successfully.

The screenshot shows the 'Aryson Excel to vCard Converter (Demo)' application window. The interface is titled 'Best Tool to Export MS Excel Contacts into vCard or VCF Format'. It features several configuration sections:

- Export File as:** Two radio button options:  **Create a Single file for all Contacts** and  **Save as Blank Contacts**.
- Select vCard Version:** Three radio button options:  **vCard Version 2.1**,  **vCard Version 3.0**, and  **vCard Version 4.0**.
- Remove Duplicacy:** A checked checkbox  **Remove Duplicacy**, with sub-options  **First Name** and  **Last Name**.
- Naming Convention:** A label 'Based on file name:' followed by a dropdown menu currently set to 'Middle Name'.
- Log Path:** A text input field containing 'C:\Users\admin\Documents' and a 'Log Path' button.
- Destination Path:** A text input field containing 'C:\Users\admin\Desktop' and a 'Dest. Path' button.

At the bottom of the interface, there are two buttons: 'Back' (with the text 'Back to the Previous Panel.' below it) and 'Convert' (with the text 'Convert Excel file into vCard.' below it).

**Step 10:** Click on the Show Mapping button to show the mapping result. Click on the Convert Again button, then convert the Excel file into another file format. Click on the Download Report button, and then get all the reports in detail.

The screenshot shows the Aryson Excel to vCard Converter (Demo) application window. The title bar reads "Aryson Excel to vCard Converter (Demo)". The main header says "Best Tool to Export MS Excel Contacts into vCard or VCF Format". On the left, there is a table with the following data:

No. of Rows
1
1
1
10

In the center, a modal window displays a mapping table:

Excel Field	vCard Field
First Name	First Name
Middle Name	Middle Name
Last Name	Last Name
Suffix	Suffix
Company	Company
Job Title	Job Title
Business Street	Business Street

Below the mapping table is a "Cancel" button. At the bottom of the application, three buttons are highlighted with red boxes:

- Show Mapping**: Show Mapping Table.
- Convert Again**: Convert a File Again.
- Download Report**: Download Report File.
