

Mozilla Thunderbird Backup Tool

(Software guide)

Overview

Mozilla Thunderbird Backup Tool is a robust utility for the systematic backup and restoration of Thunderbird Mailbox data. The tool facilitates the export of emails, contacts, and other mailbox items into various file formats, including PST, PDF, EML, MSG, and more. It also allows users to migrate emails from Thunderbird to other email clients like Gmail, Office 365, Hotmail, iCloud, Zoho Mail, etc. The tool offers various advanced filters that make the backup process easy and hassle-free.

What's New in this Version?

- Enhanced user interface for improved navigation and usability.
- Added advanced filtering options for more precise email selection during export.
- Improved performance speed, reducing backup time for large mailboxes.
- Improved compatibility with various Windows operating systems and updates.
- Offers a trial version for users to evaluate the tool's functionality before purchase.

Key Features

- Supports backup of emails, contacts, and settings from multiple Thunderbird profiles.
- Allows export to various file formats, including PST, EML, MSG, and MBOX.
- Allows users to select specific date ranges for filtering emails during backup.
- Features a simple installation process with minimal system requirements.
- Provides a user-friendly interface for easy navigation and operation.
- Offers customization options for selecting specific folders and applying filters.
- Includes the ability to backup attachments along with emails.
- Features a preview option to review emails before backup.
- Compatible with all versions of Mozilla Thunderbird.

Minimum System Requirements

- Hard Disk: 500 MB of free hard disk space required
- **RAM:** 4 GB of RAM (4 GB is recommended)
- **Processor:** Intel® Core[™] 2 Duo CPU E4600 @ 2.40GHz 2.39GHz

Installation Process of Aryson Software

Follow the steps to install the Aryson Technologies software on your system:

• Firstly, Visit the official website of Aryson Technologies.

(https://www.arysontechnologies.com)

• After that Click on the **Product Section** of the Website and choose the software you

need to download from the navigation list.

• After that, You will find a product description page of your selected software. From the

description page, tap on the **Download Now** button.

• After downloading, **double-click** on the downloaded .exe of the tool. Or visit the download

location from your computer and **run** the software as an **Administrator**.

• Click the **Next** button to continue the installation setup of the software.

• Choose the **destination directory** of the software and click **Next**.
